

QUIET GRANULATOR

The Model 32/15 is a quiet low-level granulator for beside the press and limited centralised application for small components, sprues and runners, tops and tails, trim, extrusions etc.

The design maximises noise reduction with special sound absorbant materials in the cabinet and on the hopper. As with all Blackfriars granulator machines this unit has been designed with durability and reliability in mind.

The motor and cutting chamber are acoustically isolated from the rest of the machine.

Access to the machine requires no tools and all parts are easily reached for cleaning and maintenance.

Model	32 / 15
Size	320 x 150
No of Rotor Knives	3
No of Stator Knives	1
Rotor Diameter (mm)	150
Motor Range (kW)	4 / 7.5
Output in Kg / Hr with 9mm Screen	70 - 120
Dimensions in mm (L x W x H)	710 x 750 x 1220
Machine Weight (kg)	450
